8 Antworten

**Do you have any comments on the app's user interface?**

6 Antworten

Some functions don't work. If they are fixed, it could be a nice and simple app for companys.

Maybe add some text to indicate what each logo means

App is sometimes a bit laggy and I weren't able to type something in

It is very user friendly

Very good experience. Some minor changes must be done.

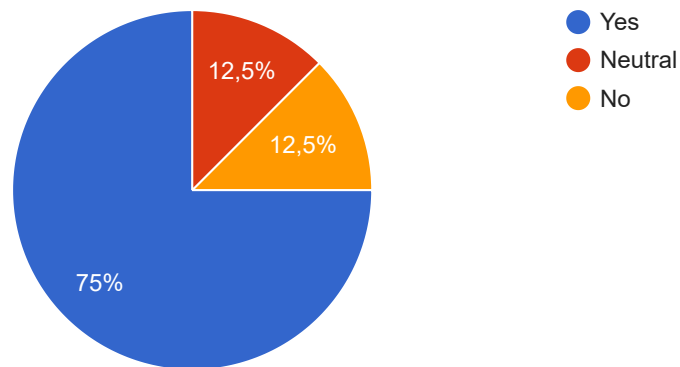

It's nice because it's not complicated to understand how it works and how to use it. There isn't a lot of buttons which make things simple and nice

Was the navigation between the screens fluent/easy?

## Did you have any difficulties creating a new form?

7 Antworten

It didn't worked

Did not find the menu inside a team at first

It was a little confusing to find the logo to create the form

Type in the question

No

No, but I didn't understand I have to press the "+" button. Should be mentioned.

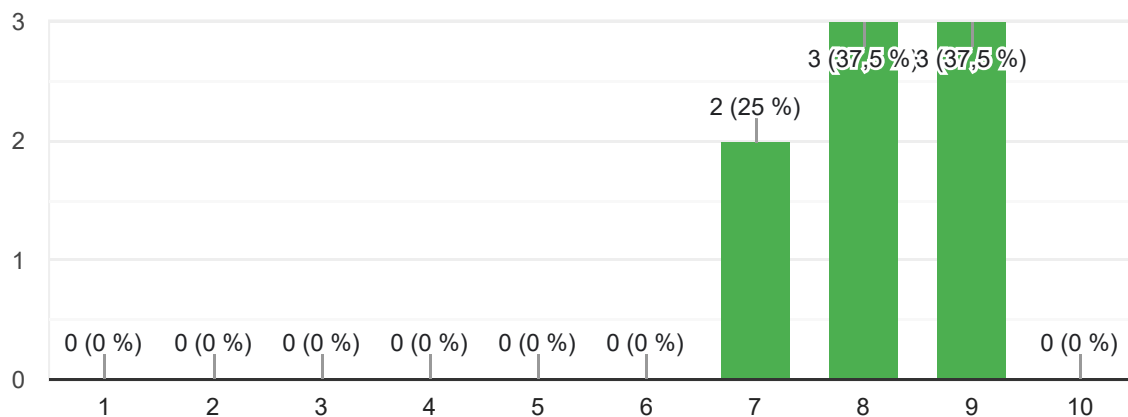

no

## Likability and Improvement

On a scale of 1 to 10, how likely are you to recommend our app's team management features to a friend or colleague?

## Which feature needs more modification/improvement?

8 Antworten

Timetable with an overview over the whole project. Every assignement of a group member is schedueled with the time how long it will takes.

The "Form" form

Add more information text for logos

That you need an application to answer. (implementation)

The team did not show my name immediately diatly

Creating a new team. Team name didn't show and also the number of the members.

I was confused what I should do on the login screen. Should I create a new account, login or click the emojis? A more detailed task description would have helped a bit. It was irritating that there was no kind of interactivity for text fields. Of course it is just a prototype but I would have expected some workaround that would have signaled me that i can continue without filling in information.

It could be nice if we could writ our own questions.

## Do you have any other comments about the app?

-

I like that the buttons are big enough

It has a nice design

clean and appealing design

It has the potential

No, it is very user friendly.

See above

I like the possibility to answer with smileys.
